King's Bay Gold Corporation

Notes to the Condensed Interim Financial Statements

For the nine months ended September 30, 2016

Unaudited - Expressed in Canadian dollars

1. NATURE OF OPERATIONS

King's Bay Gold Corporation ("King's Bay" or the "Company") was incorporated in Canada pursuant to the *Canada Business Corporations Act* on March 20, 1998, and is in the business of acquiring, exploring, developing and evaluating mineral resource properties. The Company is a public company listed on Tier 1 of the TSX Venture Exchange in Canada with the symbol "KBG".

The head office, principal address and registered and records office of the Company are located at Suite 1450 – 789 West Pender, Vancouver, BC, Canada, V6C 1H2.

2. GOING CONCERN

The Company has not generated any revenues and has incurred accumulated losses of \$16,921,211 (December 31, 2015 – \$16,706,747) since inception. As at September 30, 2016, the Company has a working capital deficiency of \$51,067 (December 31, 2015 – \$764,463). These financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The application of the going concern concept is dependent upon the Company's ability to satisfy its liabilities as they become due and to obtain the necessary financing to continue operations, the attainment of profitable mining operations or the receipt of proceeds from the disposition of its mineral property interests. Management is actively engaged in the review and due diligence on opportunities of merit in the mining sector and is seeking to raise the necessary capital to meet its funding requirements. The conditions described above, cast significant doubt as to the appropriateness of the use of the going concern assumption.

The Company is not expected to be profitable during the ensuing twelve months and therefore must rely on securing additional funds from either debt or equity financings for cash consideration. While the Company is expanding its best efforts to achieve the continued financing, there is no assurance that any such activity will generate sufficient funds for future operations.

3. BASIS OF PRESENTATION

Statement of Compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"), applicable to the presentation of interim financial statements, including IAS 34, Interim Financial Reporting.

Basis of Measurement

These financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair value, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

Approval of the Financial Statements

The financial statements of King's Bay Gold Corporation for the nine months ended September 30, 2016, were authorized for issue in accordance with a resolution of the directors on November 16, 2016.

Significant Accounting Judgments, Estimates and Assumptions

The preparation of these financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Estimates and assumptions

In particular, information about significant areas of estimation uncertainty considered by management in preparing the financial statements includes:

- The recoverability of the carrying value of the exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest;
- The inputs used in assessing the recoverability of deferred tax assets to the extent that the deductible temporary differences will reverse in the foreseeable future and that the Company will have future taxable income;

Management judgments

The critical judgments that the Company's management has made in the process of applying the Company's accounting policies from those involving estimations that have the most significant effect on the amounts recognized in the Company's financial statements are as follows:

- Economic recoverability and probability of future economic benefits of exploration, evaluation and development costs

Management has determined that exploratory drilling, evaluation, development and related costs incurred which have been capitalized are economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefit including geologic information, scoping and feasibility studies, accessible facilities, existing permits and life of mine plans.

- Going concern

Significant judgments used in the preparation of these financial statements include, but are not limited to those relating to the assessment of the Company's ability to continue as a going concern.

4. SIGNIFICANT ACCOUNTING POLICIES

The policies applied in these condensed interim financial statements are consistent with policies disclosed in Note 4 of the financial statements for the year ended December 31, 2015. These condensed interim financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2015.

5. MARKETABLE SECURITIES

Marketable securities consist of equity securities over which the company does not have control or significant influence and are designated as financial assets at fair value through profit or loss ("FVTPL"). Unrealized gains and losses due to period end revaluation to fair value are included in profit or loss for the period.

During the nine months ended September 30, 2016, the Company received 200,000 common shares and 200,000 share purchase warrants of Intact Gold Corporation ("Intact") in accordance with the sale agreement of the Blackjack Property.

During the nine months ended September 30, 2016, the Company sold nil (December 31, 2015 – 285,000) common shares of Mega Precious Metals Inc. ("Mega"). As at September 30, 2016 the Company owned nil (December 31, 2015 – nil) common shares of Mega.

On May 27, 2016, the Company closed the second and final tranche of a private placement of 2,950,000 shares at a price of \$0.05 per share for proceeds of \$147,500. The shares issued pursuant to the private placement are subject to a statutory hold period expiring four months and one day after September 28, 2016. Insiders of the Company subscribed for an aggregate of 950,000 shares under the private placement, which is a "related party transaction" within the meaning of Multilateral Instrument 61-101 Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The participation of the insider in the private placement was exempt from the valuation and minority shareholder approval requirements of MI 61-101 by virtue of the exemptions contained in Sections 5.5(a) and 5.7(a) of MI 61-101 in that the fair market value of the consideration of the Units to be issued to the insider did not exceed 25% of the Company's market capitalization.

During the year ended December 31, 2015:

On April 15, 2015 the company issued 25,000 common shares under a land option agreement relating to the Menary Gold Project. Based on the estimated fair value of the land options, the shares were valued at \$1,250 (Note 7).

9. SHARE-BASED PAYMENTS

The Company has a Stock Option Plan (the "Plan") under which it is authorized to grant options to directors, officers, consultants or employees of the Company. At the Company's Annual and Special General Meeting on May 31, 2016, the shareholders approved the "2016 Stock Option Plan", and set the number of options granted under the Plan to not exceed 10% of the issued and outstanding shares. Options granted to employees vest fully on grant. Options issued to investor relations consultants vest in stages over 12 months with one quarter of the options vesting in any three month period.

The following is a summary of option transactions under the Company's stock option plan for the nine months ended September 30, 2016 and the year ended December 31, 2015:

	September 30, 2016		December 31, 2015

10. RELATED PARTY TRANSACTIONS

(a) Key management personnel compensation

The Company did not pay employment based remuneration to directors, officers and other members of key management for the nine month ended September 30, 2016 and 2015. However, the Company did pay contract based remuneration to directors, officers and other members of key management as disclosed in Note 10 (b).

(b) Other related party transactions

Included in these financial statements are the following related party transactions, which have been determined by negotiation amongst the related parties. These transactions are in the normal course of operations and are measured at the same value as if the transactions had occurred with non-related parties. Certain expenditures relating to exploration have been capitalized to exploration and evaluation assets.

The Company incurred the following fees and expenses in the normal course of operations:

Related parties	Type of Service	Nine Months ended September 30,	
		2016	2015
7851235 Canada Ltd (a)	Consulting services	-	85,260

As at September 30, 2016 and December 31, 2015, there were no amounts due to related parties.

- a) 7851235 Canada Ltd., a business owned by a former director, for consulting services relating to marketing and administrative support.

These transactions are in the normal course of operations and have been valued in these financial statements at the exchange amount which is the amount of consideration established and agreed to by the related parties. The amounts due to related parties are unsecured, non-interest bearing, and have no specific terms of repayment.

11. FINANCIAL RISK MANAGEMENT

The Company is exposed in varying degrees to a variety of financial instrument-related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

(a) Credit risk

Credit risk is the risk of loss associated with a counter party's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to its cash balances. The Company manages its credit risk on bank deposits by holding deposits in high credit quality banking institutions in Canada.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash and cash equivalents.

Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

King's Bay Gold Corporation

Notes to the Condensed Interim Financial Statements

For the nine months ended September 30, 2016

Unaudited - Expressed in Canadian dollars

11. FINANCIAL RISK MANAGEMENT – continued

(d) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has cash balances and is not exposed to any significant interest rate risk.

(e) Capital management

Capital is comprised of the Company's shareholders' equity and any debt it may issue. As at September 30, 2016, the Company's shareholders' equity was \$75,184 (December 31, 2015 – \$602,151 deficiency). The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support its operations and business development. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company has not generated any revenues and cash flows since its inception; therefore, the Company is dependent on external financing to fund its future intended business plan. The capital structure of the Company currently consists of working capital and shareholders' equity. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements. The Company is not subject to externally imposed capital requirements.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

(f) Fair value

The fair value of the Company's financial assets and liabilities approximates the carrying amount.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The following is an analysis of the Company's financial assets measured at fair value as at September 30, 2016 and December 31, 2015:
